c. The Air Ferce has a primary interest in the product as well as provides primary support to the operations.

pointed out that the only interest DD/P has is to find a secure system to get the materials to the people who need it in the quickest possible time. The writer learned on the following day that was going to Europe the next week in order to look into the procurement problem for additional equipment accded for the Air Force to process the materials.

points:		and Reber made the fellowing	,

a. That the DCI was responsible for the security and dissemination of the products of a CIA operation such as this; that the TALENT Centrel System had been designed in order to carry out these responsibilities in the case of AQUATONE, a project similar to the P2V program; that we ought to know why the same reasoning and arrangements applicable to AQUATONE are not applicable to the P2V program; and that we should be sure that the facilities and arrangements for processing, dissemination and secure control applicable for AQUATONE are not applicable to P2V program before different arrangements are concluded.

In conclusion, Mr. Reber indicated that he would like to discuss the matter with Mr. Bissell.

tne	matter to him	x Mr. Bis n. Mr. B	ning, June 21st, Mr. Reber brought to sell who stated that Mr. Amory had a desell requested Reber to inform	he matter mentioned	25X1
